## You'll Flip Over Girls Can! Make it Happen

by Courtney Norgren

*Girls Can!* is a book about inspiring girls that they can do anything if they put their hearts into it. The best part of this book is the stories about the girls achieving what they set out to do. This is a story for all ages and everyone including brothers, sisters and parents. This book was written with the cooperation of the former little girls

named Sandra Day O'Connor, Jackie Joyner-Kersey, and Sally Ride. These three little girls went on to accomplish great things in law school, sports, and as America's first woman in space.

After I read this book, I went to gymnastics and I tried both a standing flop flip flop and an ariel. The point is that I put my heart into landing these moves and I

did it.

*Girls Can!* can be found at your local bookstore or on-line. Our school library also has a copy that was donated by Tristan Publishing. The author is Rick Kupchella and the illustrator is Marilyn Brown. For more information visit [tristanpublishing.com](http://tristanpublishing.com).
